Hey Alex,

I was curious if Twelve Data is licensed with exchanges to redistribute their real time pricing data (for example with Toronto Stock Exchange, NASDAQ, etc). Our investors are pushing on us a bit to verify our data sources, sorry.

All the best,

REDACTED - CONFIDENTIAL

Hey REDACTED - CONFIDENTIAL

We are working through other data vendors, which allow us to further redistribute data. This should not be an issue for your side.

Best,
Alex
