Boutique Brilliance: Haley Guiliano Celebrated by Chambers and Partners

Haley Guiliano is proud to share the news that our firm has been recognized for the first time by Chambers and Partners, one of the most respected legal ranking organizations. This prestigious honor highlights the exceptional work of our New York office in the field of Patents and marks a significant milestone for our entire firm, which is just seven years young.

Being included in the Chambers and Partners listings is no small feat, especially in a field often dominated by large, international firms with hundreds of attorneys. This recognition is a testament to the impact that boutique firms like ours, with targeted offerings and dedicated teams, can have in the legal landscape.

"We are thrilled and honored to be recognized by Chambers and Partners," said our Life Sciences Partner, Karen Mangasarian. "This ranking is a testament to the hard work, dedication, and exceptional talent of our team. It demonstrates that the HG approach, which emphasizes ingenuity and technical expertise, can compete with the best in the world."

We are pleased that Chambers recognized that our strategic locations and carefully curated, nimble teams enable us to deliver on our promise of exceptional service. With offices and personnel in the U.S. and Europe, we hold a strategic position in two of the most important intellectual property jurisdictions in the world. Each of our ten partners leads a team of skilled attorneys, patent agents, and technical advisors, all supported by top-notch administrators and legal professionals. Together, we work to meet our clients' business objectives with unparalleled expertise.

"This achievement is particularly meaningful for us as a relatively new firm," said Co-Founding Partner Jim Haley. "In just seven years, we've redefined the commercial value of patents for many of our clients, offering business-focused claim drafting and prosecution, deep expertise in their technologies, and advocacy that surpasses that of firms with far greater resources. Our team's unwavering commitment to innovative and client-focused service is the cornerstone of our success."

What sets us apart is our approach. At HG, we don't offer cookie-cutter solutions but instead tailor our solutions to our clients' business needs. We emphasize direct partner contact, employ highly qualified, technically trained team members, and ensure a consistent, exceptional experience for our clients. Our clients appreciate our boldly original approaches that stand the test of time.

Chiming in from San Jose, Partner Greg Lundell added, "HG is creating an environment that facilitates excellence in its craft and the industry. To be a boutique firm recognized in Chambers and Partners is deep validation that we're taking the right steps. I'm looking forward to building on HG's personnel, geographic, and experiential foundations to expand its capacity to offer the services our clients need to realize the value in their intellectual property."

This recognition by Chambers and Partners reflects the outstanding quality of legal work delivered by HG and underscores our firm's potential for continued growth and excellence. It showcases the elite teamwork and dedication from start to finish that defines us. We are proud of this achievement and look forward to continuing to serve our clients with the same passion and excellence that has brought us to this moment.
