Dannie Rae joined Haley Guiliano as a Technical Advisor in 2020 after graduating from the University of California, Davis, with degrees in Applied Mathematics and Physics. Dannie has experience in patent prosecution processes, including prior art searches, from an internship at the University of California at Davis Technology Transfer Office. There, she was heavily involved in the licensing process, including drafting non-confidential disclosures, marketing analysis, and editing material transfer agreements. In addition, she worked on a diverse set of patent portfolios, including, but not limited to, photonic signal processing for satellites, medical devices, and neural networks. She also worked as a research assistant in the physics department, where she helped develop mathematical models for the transport of proteins through the axon of a neuron.
