Jim Haley Named Life Sciences Patent Strategy Attorney of the Year (New York)

Jim Haley was honored as Patent Strategy Attorney of the Year-New York at the virtual LMG Life Sciences Awards 2020 ceremony held on September 23, 2020. LMG Life Sciences is the definitive guide to leading North American law firms and lawyers specialized in the life sciences industry. Mr. Haley is a recognized leader in life sciences prosecution, litigation, opposition, and post-grant proceedings, both in the United States and in Europe. Recognized in “Best Lawyers in America®” (since 1991) in Biotechnology and Life Sciences and in Intellectual Property and Patent Litigation and a 2017 inductee into the LMG Life Sciences Hall of Fame, Mr. Haley is at the cutting edge of patent strategy for the biotechnology, biopharmaceutical, pharmaceutical and chemical industries. He’s also been a frequent innovator in the life sciences patent practice itself, including the development of a robust technical advisor program which has developed over seventy Ph.D.’s in the life sciences and organic chemistry as they transitioned from the laboratory, through law school, to attorneys at law, specializing in intellectual property procurement, counselling, defense and enforcement.
