Fax: 669-500-7375

Paul joined Haley Guiliano in 2022 after graduating from the University of California, Santa Barbara (UCSB) with a B.A. in Economics, a B.S. in Physics and a minor in German. The overlap between his two majors allowed him to take a broad range of courses exposing him to the vital role that patents play in combining these fields. While at UCSB, Paul worked as an undergraduate peer advisor in the physics department where he served as a liaison for both professors and students.

Previously, Paul worked at Polytec Inc. doing market research for laser vibrometer applications for noise, vibration, and harshness testing. He also has experience conducting data analysis and managing the CRM system for the Direct-to-Employee Department at BSH Home Appliances Corporation.
