Rebecca Rothkopf is an intellectual property attorney with extensive experience obtaining and enforcing intellectual property rights, including patents, trademarks, trade dress, and copyrights. She manages patent matters for clients in various fields, including computer software, mechanical devices, medical devices, and consumer products. She also has experience in obtaining and managing large trademark portfolios containing both domestic and foreign marks and has excelled in offering her clients practical but powerful strategies.

Rebecca has experience handling IP disputes both in federal courts and before the U.S. Patent and Trademark Office. In addition to her litigation experience, Rebecca has experience in all stages of patent and trademark prosecution – from helping clients determine protectable assets to maintaining granted U.S. and international rights.

Prior to her law career, Rebecca worked in the computer software and biotechnology fields. She is experienced in the Python programming language and artificial intelligence software development. Her work has been published in various journals, including *Surgery for Obesity and Related Diseases* and the *Journal of the American College of Nutrition*.
