Roger Nash joins HG's London Office

Roger Nash is joining Haley Guiliano's London office as Counsel. Roger was previously Head of Patents at British Telecom. Head of our London office, Peter Hale, said:

“I am personally very pleased to welcome Roger to our firm. He brings with him a huge amount of commercial experience, having led the implementation of the IP strategy for BT which is one of the foremost IP asset holders in the UK. He is just the sort of person to reinforce HG’s approach of commercially relevant and strategically focused IP advice on which our reputation is based. The fact that he chose to join us says it all.”
