Saeed is a European Patent Attorney with a broad background in the field of physics. He has expertise in patent application prosecution, patent application drafting and European Patent Office opposition proceedings in technical fields ranging from telecommunications, artificial intelligence, encryption technologies, medical devices, manufacturing and software-based inventions. He has worked with clients ranging from SMEs to large multinational corporations.

Prior to his entry to the intellectual property profession, Saeed completed a first-class M.Sci honours degree in physics and nanotechnology. He then continued his studies at the National Physical Laboratory and the University of Birmingham and obtained a Ph.D. in the field of nanotechnology. This work resulted in two publications and was presented at three international conferences.

Outside of work, Saeed enjoys traveling, cycling and playing football.
